# 1. About Fundhost

## Fundhost

Fundhost is a public company that acts as the responsible entity and provides essential services to the Fund. Fundhost's core business is to operate registered managed investment schemes and provide compliance, administration and registry services. We are responsible for the day-to-day operations of the Fund and have appointed Third Link to manage the assets of the Fund.

## About Third Link

Third Link is the investment manager of the Fund. Third Link is a private company founded by Chris Cuffe. The directors are Chris Cuffe and Ashley Owen. The shares of the company are owned by a private trust for which Chris is sole trustee and appointor. The beneficiary of the private trust is the Cuffe Family Foundation which has been established to facilitate charitable giving.

# 2. How the Fund works

## Mechanics

When you invest in the Fund your money (together with all other investors' monies) is gathered in the one place and invested in assets. We have appointed Third Link to manage the Fund. Third Link uses its resources, experience and expertise to make the investment decisions.

We have also appointed National Australia Bank Limited (**NAB**) as the independent custodian to hold the assets of the Fund.

## Units

The Fund is a "unit trust". This means your interests in the Fund are represented by "units". Certain rights (such as a right to any income and a right to vote) attach to your units. You may also have obligations in respect of your units.

∞ Each unit has a value which we calculate. When you invest, we issue you a number of units depending on the amount you invest. Similarly, when you withdraw from the Fund, we calculate your withdrawal proceeds by reference to the number and value of units you hold at the time of withdrawal. Generally, the price of units will vary as the market value of assets in the Fund rises or falls.

## ∞ Investing and withdrawing

To invest in the Fund, you must first seek approval to apply from Third Link by emailing [enquiries@thirdlink.com.au](mailto:enquiries@thirdlink.com.au). You may then use the application form accompanying this PDS. The following minimum transactions, balance requirements and processing rules generally apply (although we may vary or waive them at our discretion and without notice):

<b>Minimum initial investment</b>	\$20,000
<b>Minimum additional investment</b>	\$20,000
<b>Minimum withdrawal</b>	\$20,000
<b>Minimum balance</b>	\$20,000
<b>Unit pricing frequency</b>	Monthly
<b>Applications and withdrawals processing</b>	Applications from approved applicants are generally processed monthly, subject to the application form being in order and monies being received by 4 pm Sydney time on the last business day of the month, to be processed using the unit price effective for that month.  Redemptions are generally processed monthly subject to being received before 4 pm Sydney time 10 clear business days before the end of month.

You can increase your units by reinvesting distributions (this will be done automatically unless you tell us otherwise) or by making an additional investment (use the additional investment form to do this), or you can decrease your units by making a withdrawal (simply contact us in writing and tell us how much you need to withdraw). We call this a redemption request. We accept scanned or faxed redemption requests on certain conditions.

## ∞ Delays

Normally, once we decide you can withdraw your money (usually this happens within 10 business days of receipt of your redemption request), we process the request within 10 business days at month end (although the constitution for the Fund allows us 60 business days), and pay funds to your nominated account.

In certain circumstances, such as a freeze on withdrawals or where the Fund is illiquid (as defined in the *Corporations Act 2001* (Cth) (**Corporations Act**)), you may have to wait a longer period of time before you can redeem your investment.

If the Fund is not sufficiently liquid then you will only be permitted to withdraw if we make a withdrawal offer to all investors in accordance with the Fund constitution and the Corporations Act.

## ∞ Compulsory redemptions

In some circumstances, subject to the Corporations Act, we may also compulsorily redeem your units. We may do this, for example, where we suspect that a law prohibits you from being an investor in the Fund.

## Distributions

Any income distributions are generally paid semi-annually (as at 30 June and 31 December each year) and can be reinvested in full or paid out entirely to the financial institution account nominated on your application form. You can indicate your choice on the application form. If you do not make a choice, then distributions will be reinvested. Any distributions reinvested are reinvested at the ex-distribution mid-price.

Distribution payments are typically made within 2 months after the end of the distribution period. Distributions will not be paid by cheque.

We generally calculate income distributions based on the Fund's net income at the end of the distribution period divided by the number of units on issue.

We distribute all taxable income to investors each year, including any taxable capital gains. Distributions may also carry imputation or other tax credits.

You should read the following important information before making a decision to invest in the Fund: ∞ "Investing and withdrawing". Note the information may change between the time when you read this PDS and the day when you acquire the product.

## 3. Benefits of investing in the Fund

### Significant features

The objective of the Fund is to provide an investment in Australian listed shares. Third Link aims to outperform the S&P/ASX 300 Accumulation Index after fees over rolling 5 year periods. The Fund will extensively invest with professional third party investment managers (limited to a maximum of 25% of the overall Fund value invested with any one manager) through structures such as managed investment funds, individually managed accounts, managed discretionary accounts, advisory accounts, listed investment companies, or other similar arrangements. The various investment managers/structures utilised are listed on the Third Link website. A portion of the Fund may also be invested directly by Third Link rather than using third party investment managers. Up to 10% of the Fund may be invested in unlisted securities which are expected to list within 12 months.

### ∞ Significant benefits

The Fund provides the opportunity to participate in a professionally managed investment fund, with all fees received by Third Link from managing the Fund's investments, net of expenses incurred, going towards supporting a number of charitable organisations. These charitable organisations are listed on the Third Link website and may change from time to time.

Provided the Fund operates at a reasonable size, the aim is that this contribution will equate to more than one per cent per annum of the Fund's value. This would mean if you invest \$50,000 in the Fund you will effectively be contributing at least \$500 per annum to charity (varying in line with the Fund's value over time). This one per cent is not an additional expense to the normal fees and expenses of managing the Fund and does not dilute investment returns. Rather, it stems from the support of a number of investment and service professionals who have agreed to waive some or all of the fees that would otherwise be due to them for services rendered. These waived fees are diverted, in effect, to the charitable sector. The providers of pro bono professional support are listed on the Third Link website.

An investment in the Fund provides you with exposure to the skills of a number of underlying managers of Australian listed shares.

In addition, it capitalises on Chris Cuffe's industry knowledge considerable contacts and many years of experience in the investment management industry with the aim of providing both a competitive offering for investors and a valuable contribution to the charitable sector.

You should read the following important information before making a decision to invest in the Fund: ∞ "Benefits and features". Go to Part B of the Information Booklet available at [www.fundhost.com.au](http://www.fundhost.com.au). Note the information may change between the time when you read this PDS and the day when you acquire the product.

## 4. Risks of managed investment schemes

All investments carry risk. Different strategies may carry different levels of risk, depending on the assets that make up the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk.

### ∞ Significant risks

The significant risks of the Fund include:

- **Counterparty risk:** Losses can be incurred if a counterparty (such as a broker) defaults on their contractual obligations or experiences financial difficulty.
- **Cyber risk:** There is a risk of fraud, data loss, business disruption or damage to the information of the Fund or to investors' personal information as a result of a threat or failure to protect the information or personal data stored within the IT systems and networks of the responsible entity or other service providers.
- **Derivatives risk:** Third Link may, on occasions, use derivatives. Derivative valuations may not move in line with the underlying asset and can be highly volatile. The use of derivatives may magnify any losses incurred.
- **Fund risk:** The Fund could terminate (for example, at a date we decide), fees and expenses could change (although we would give you at least 30 days' notice where practicable if fees were to increase), we could be replaced as responsible entity and our management and staff could change. Investing in the Fund may give different results than investing individually because of accrued income or capital gains and the consequences of others investing and withdrawing.
- **Interest rate risk:** The capital value or income of a security held by the Fund may be adversely affected by interest rate movements.
- **Underlying fund risk:** This arises because the Fund invests extensively in other managed investment funds and therefore will be exposed to the risks of the underlying funds. In addition, the Fund may also be affected by the liquidity of the underlying funds and other circumstances affecting the underlying funds, including for example circumstances where the underlying funds suspend redemptions.
- **Investment management risk:** There is a risk that Third Link or another investment manager with whom the Fund's assets are invested will not perform to expectation or factors such as changes to the investment team may affect the Fund's performance.

- **Liquidity risk:** Access to your money may be delayed (see Section 2 “How the Fund works” and “Delays”). Overall market liquidity can make it difficult to trade profitably and to realise assets in a timely fashion to meet withdrawal requests. Units in the Fund are not quoted on any stock exchange so you cannot sell them through a stockbroker.
- **Market risk:** Economic, technological, climate, political or legal conditions, interest rates and even market sentiment, can (and do) change, and these changes can affect the value of the investments in the Fund.
- **Regulatory risk:** The value or tax treatment of the Fund or its investments, or the effectiveness of the Fund’s investment strategy, may be adversely affected by changes in government (including taxation) policies, regulations and laws affecting registered managed investment schemes, or changes in generally accepted accounting policies or valuation methods.

### ∞ Risks applicable to managed funds generally

Other significant risks relevant to many managed funds include the value of investments will vary, the level of returns will vary, future returns may differ from past returns, and returns are not guaranteed. You may lose your money.

The level of risk for each person will vary depending on a range of factors, including age, investment time frames, where other parts of your wealth are invested and your risk tolerance. These risks can be managed but cannot be completely eliminated. You can adopt tools to help you manage your own risk.

**You should read the following important information before making a decision to invest in the Fund: ∞ “Risks in general”. Go to Part C of the Information Booklet available at [www.fundhost.com.au](http://www.fundhost.com.au). Note the information may change between the time when you read this PDS and the day when you acquire the product.**

## 5. How we invest your money

You should consider the likely investment return, risk and your investment timeframe when choosing a fund to invest in.

<b>Fund Description</b>	The objective of the Fund is to provide an investment in Australian listed shares (and therefore it is suitable for those investors wanting exposure to the Australian share market). The Fund extensively invests with professional third party investment managers.  All fees received by Third Link from managing the Fund’s investments, net of expenses incurred, go towards supporting a group of charitable organisations.
<b>Investment Return Objective</b>	The Fund aims to outperform the S&P/ASX 300 Accumulation Index over a rolling 5 year period.  Note the investment return objective is not intended to be a forecast. It is merely an indication of what the Fund aims to achieve over the medium to longer term on the assumption that equity markets remain relatively stable throughout the investment term. The Fund may not be successful in meeting this objective. Returns are not guaranteed.
<b>Benchmark</b>	S&P/ASX 300 Accumulation Index
<b>Fund’s investments and Asset Allocation</b>	The investment ranges will be 90% - 100% Australian listed shares/securities (which can also include Australian unlisted shares/securities which are soon to list), with the balance in cash or cash-equivalent investments.
<b>Recommended Minimum Investment Period</b>	At least 5 years
<b>Borrowing</b>	The constitution of the Fund allows the responsible entity to borrow. However, except for short term arrangements for settling purchases of assets or meeting withdrawals, there is no current intention for the Fund to borrow. Derivatives will not be used to gear the Fund.
<b>Risk</b>	High
<b>Suitability</b>	The Fund is suitable for investors who <ul style="list-style-type: none"> <li>• are seeking capital growth from a portfolio of primarily listed Australian equities</li> <li>• are seeking an income stream via dividends and franking credits and</li> <li>• have a high tolerance to risk.</li> </ul>
<b>Labour and Environmental, Social or Ethical Considerations</b>	We do not take into account labour standards or environmental, social or ethical considerations for the purposes of selecting, retaining or realising investments. Because the majority of the Fund’s assets will be invested with third party investment managers, we have no control over such factors and therefore cannot represent the Fund as an ‘ethical’ investment.

Any of the above details could change at any time and without notice. Where we consider the changes are significant, we will notify you of the changes (and give you 30 days’ prior notice where practicable).

**You should read the following important information before making a decision to invest in the Fund: ∞ “The investment process”. Go to Part D of the Information Booklet available at [www.fundhost.com.au](http://www.fundhost.com.au). Note the information may change between the time when you read this PDS and the day when you acquire the product.**

## 6. Fees and costs

### DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

### TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) Moneysmart website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed funds fee calculator to help you check out different fee options.

Information in the following table can be used to compare costs between different managed investment schemes. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the Fund as a whole.

### Fees and costs summary

#### Third Link Growth Fund

Type of fee or cost	Amount	How and when paid
<b>Ongoing annual fees and costs<sup>1</sup></b>		
<b>Management fees and costs *</b> The fees and costs for managing your investment	1.45% pa	Calculated and accrued monthly and paid monthly in arrears.
<b>Transaction costs*</b> The costs incurred by the scheme when buying or selling assets	0.15% pa	These costs are expressed net of any amount recovered by the buy-sell spread and are generally paid as incurred.
<b>Member activity related fees and costs (fees for services<sup>2</sup> or when your money moves in or out of the scheme)</b>		
<b>Establishment fee</b> The fee to open your investment	Nil	Not applicable
<b>Contribution fee</b> The fee on each amount contributed to your investment	Nil	Not applicable
<b>Buy-sell spread</b> An amount deducted from your investment representing costs incurred in transactions by the scheme	+0.25% / -0.25%	Calculated as a percentage of the mid unit-price. Paid from investors' money when an investor applies to acquire or redeem units. Retained by the Fund.
<b>Withdrawal fee</b> The fee on each amount you take out of your investment	Nil	Not applicable
<b>Exit fee</b> The fee to close your investment	Nil	Not applicable
<b>Switching fee</b> The fee for changing investment options	Nil	Not applicable

<sup>1</sup>All fees are expressed as a percentage of net asset value of the Fund excluding accrued fees.

<sup>2</sup>For information on service fees, please see "Additional explanation of fees and costs".

\*Any item marked with an asterisk (\*) is an estimate. Please refer to our website for any updates on these estimates which are not considered to be materially adverse from a retail investor's point of view.

### Example of annual fees and costs

This table gives an example of how the ongoing fees and costs for the Fund can affect your investment over a one-year period. You should use this table to compare the Fund with other managed investment schemes.

Example	Balance of \$50,000 including a contribution of \$5,000 during the year	
<b>Contribution fees</b>	Nil	For every additional \$5,000 you put in, you may be charged <b>\$0</b> .
<b>PLUS</b> Management fees and costs*	1.45% pa	<b>And</b> , for every \$50,000 you have in the Fund you will be charged or have deducted from your investment \$727 each year.
<b>PLUS</b> Performance fees*	Nil	<b>And</b> , you will be charged or have deducted from your investment \$0 in performance fees each year.
<b>PLUS</b> Transaction costs*	0.15% pa	<b>And</b> , you will be charged or have deducted from your investment \$76 in net transaction costs each year.
<b>EQUALS</b> Cost of the Fund	1.61% pa	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of <b>\$804</b> each year. <b>What it costs you will depend on the fees you negotiate.</b>

When calculating ongoing annual fees and costs in this table, the law says we must assume that the value of your investment remains at \$50,000 and the Fund's unit price does not fluctuate. Ongoing annual fees and costs actually incurred will depend on the market value of your investment and the timing of your contributions (including any reinvestment of distributions). The example assumes no abnormal expenses are incurred, no service fees are charged and that fees are not individually negotiated. Totals may appear incorrect due to rounding.

\*Any item marked with an asterisk (\*) is an estimate. Please refer to our website for any updates on these estimates which are not considered to be materially adverse from a retail investor's point of view.

If you would like to calculate the effect of fees and costs on your investment you can visit the ASIC website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) and use their managed investment fee calculator.

## ∞ Additional explanation of fees and costs

### Management fees and costs

The management fees and costs figure includes management fees, responsible entity fees, custody fees, ordinary and abnormal expenses and any indirect costs.

Based on the net asset value of the Fund, 1.4% pa is calculated and accrued monthly in arrears and paid out of the Fund assets directly to Third Link. From this 1.4% Third Link will pay the responsible entity fee, custody safe-keeping fees, and ordinary expenses of the Fund. Ordinary expenses include ordinary and everyday expenses incurred in operating the Fund. After these expenses are paid the net amount is payable by Third Link to various charities.

Abnormal expenses are expected to occur infrequently and may include (without limitation) costs of litigation to protect investors rights, costs to defend claims in relation to the Fund, investor meetings and termination and wind-up costs. We reserve the right to recover abnormal expenses from the Fund. The constitution of the Fund provides that expenses incurred by Fundhost in relation to the proper performance of our duties in respect of the Fund are payable or reimbursable out of the assets of the Fund and are unlimited.

Indirect costs form part of management fees and costs and include fees and expenses arising from any investment which qualifies as an interposed vehicle (e.g. any underlying fund that the Fund may invest in) and certain OTC derivative costs. Third Link negotiates with underlying funds to rebate their management and performance fees, so indirect costs are generally limited to the operating costs of the underlying funds. The Fund's indirect costs are based on the financial year ending 30 June 2021 and are estimated to be 0.05% pa. Actual indirect costs for future years may differ. The addition of this 0.05% p.a indirect cost estimate brings the total Management fees and cost figure to 1.45% p.a.

Management fees and costs exclude transaction costs (ie the costs associated with investing the underlying assets some of which may be covered through buy-sell spreads).

### Transaction costs

Transaction costs include brokerage, settlement costs, currency transactions, and clearing and stamp duty costs. When you invest in the Fund, Third Link may buy (and sell) investments, and incur these

costs. When you withdraw, Third Link may sell investments so we can pay your cash to you, and incur these costs. These costs are also incurred in connection with day-to-day trading within the Fund.

Some of these costs are recovered through the buy-sell spread. A buy-sell spread is an adjustment to the unit price reflecting our estimate of the transaction costs that may be incurred as a result of the purchase/sale of assets arising from the buying/selling of units. This adjustment ensures that existing investors do not pay costs associated with other investors acquiring/ withdrawing units from the Fund. The buy-sell spread is reflected in the buy/sell unit price. Currently, our buy-sell spread is estimated to be 0.50% of the unit price (that is +0.25% on the entry price and -0.25% on the exit price). So if the net asset value of each unit is \$1.00, on entry we adjust the unit price up approximately 0.25% (up 0.25 cents) and on exit we adjust the unit price down approximately 0.25% (down 0.25 cents).

The buy-sell spread is not paid to Fundhost or Third Link.

Gross Transaction Costs for FY 2021	Recovery through Buy-Sell Spread	Net Transaction Costs
0.18%	0.03%	0.15%

Our estimate of the total transaction costs for the Fund during the year ended 30 June 2021 was calculated using the Fund's actual transactions during that financial year. Figures may appear incorrect due to rounding. We expect this amount to vary from year to year as it will be impacted by the Fund's volume of trading, brokerage arrangements and other factors. The amount recovered through the buy-sell spread was calculated using actual applications and redemptions during the last financial year. We expect this amount to vary from year to year as it will be impacted by the volume of applications and withdrawals and any changes in the buy-sell spread for the Fund. The net transaction costs is the difference between these two amounts.

All of these amounts are expressed as a percentage of the Fund's average net asset value for the year. Based on an average account balance of \$50,000 over a one year period, the net transaction costs represent approximately \$76.

### Service costs

If you need Fundhost to do something special for you, we may charge you a fee. These special fees vary depending on what you ask us to do.

### Can the fees change or be updated?

Yes, all fees can change. Reasons might include changing economic conditions and changes in regulation. However, we will give you 30 days' written notice of any increase to fees where practicable. The constitution for the Fund sets the maximum amount we can charge for all fees. If we wished to raise fees above the amounts allowed for in the Fund's constitution, we would need the approval of investors.

Please refer to our website for any updates on our estimates of any fees and costs (including indirect costs and transaction costs)

which are not considered to be materially adverse from a retail investor's point of view. Remember, past performance is not an indicator of future performance and any fee or cost for a given year may not be repeated in a future year.

### Adviser remuneration

No commissions will be paid by us to financial advisers. Additional fees may be paid by you to your financial adviser if one is consulted. You should refer to the Statement of Advice they give you in which details of the fees are set out.

**You should read the following important information before making a decision to invest in the Fund: ∞ "Additional explanation of fees and costs". Go to Part E of the Information Booklet available at [www.fundhost.com.au](http://www.fundhost.com.au). Note the information may change between the time when you read this PDS and the day when you acquire the product.**

## 7. How managed investment schemes are taxed

∞ Investing in a registered managed investment scheme (like the Fund) is likely to have tax consequences and you are strongly advised to seek professional tax advice.

Registered managed investment schemes (like the Fund) do not pay tax on behalf of investors. Investors are assessed for tax on any income and capital gains generated by the Fund.

**You should read the following important information before making a decision to invest in the Fund: ∞ "Paying Tax". Go to Part F of the Information Booklet available at [www.fundhost.com.au](http://www.fundhost.com.au). Note the information may change between the time when you read this PDS and the day when you acquire the product.**

## 8. How to apply

### How to invest

Approved applicants generally need to invest at least \$20,000 initially. Use the application form accompanying this PDS. The application form contains detailed instructions and will ask you to provide the identification documents required under the *Anti-Money Laundering and Counter Terrorism Financing Act 2006* (Cth) (**AML CTF Act**). We do not earn interest, nor do we pay you interest on application monies held, prior to the time we issue units to you.

Additional investments may be made. Generally the minimum amount for additional investments is \$20,000.

Applications from approved applicants are generally processed monthly, subject to the application form being in order and monies being received by 4 pm Sydney time on the last business day of the month, to be processed using the unit price effective for that month.

At the absolute discretion of Third Link, the Fund may be closed to new and additional investments from time to time in order to manage and optimise the Fund size. It is important that you contact Third Link before investing to determine if the Fund is open for investment.

### Cooling off

If you decide that you don't want the units we have issued you in the Fund, we must repay your money to you.

We are allowed to (and generally do) make adjustments for market movements up or down, as well as any tax and reasonable

transaction and administration costs. For example, if you invest \$25,000 and the value of the units falls by 1% between the time you invest and the time we receive notification that you wish to withdraw your investment, we may charge you on account of the reduced unit value and you would incur a buy spread of +0.25% and a sell spread of -0.25%. This means that \$24,626 would be transferred from the Fund back to you.

If you change your mind, you have 14 days to tell us, starting on the earlier of when we send you confirmation that you are invested or the end of the 5th day after the day on which we issue the units to you.

This right terminates immediately if you exercise a right or power under the terms of the product, such as transferring your units or voting on any units held by you. For any subsequent investments made under a distribution reinvestment plan, cooling off rights do not apply.

### Enquiries and complaints

## 9. More information

### Fund performance and size

If you are interested in:

- up to date performance of the Fund
- the latest investment mix of the Fund
- current unit prices or
- the current size of the Fund,

then ask your financial adviser or go to [www.fundhost.com.au](http://www.fundhost.com.au). Your financial adviser will give you paper copies of the information free of charge. You can always call us and our details are at the beginning of this PDS. Again, up to date information is always free of charge.

Don't forget that any past returns are just that and just because they happened doesn't mean they will happen again. Returns are volatile and may go up and down significantly and sometimes quickly.

### Investing via an IDPS

When you invest via an IDPS, it is the IDPS operator which becomes the investor in the Fund (not you). It follows that the IDPS operator has the rights of an investor and can exercise them (or not) in accordance with their arrangements with you. This means for example, that you generally cannot vote on units held in the Fund and you do not have cooling off rights in respect of any units held in the Fund. Speak with the IDPS operator to determine whether any cooling off rights are available to you through the service.

We are not responsible for the operation of any IDPS through which you invest.

Indirect investors complete the application forms for the IDPS and receive reports from that operator, not from us. The minimum investment, balance and withdrawal amounts may be different. You should also take into account the fees and charges of the IDPS operator as these will be in addition to the fees paid in connection with an investment in the Fund. You can however still rely on the information in this PDS. In addition to reading this PDS, you should read the document that explains the IDPS account (called a "guide").

Enquiries and complaints about the IDPS should be directed to the IDPS operator and not to us. You can however still rely on the information in this PDS. In addition to reading this PDS, you should read the document that explains the IDPS.

All investors (regardless of whether you hold units in the Fund directly or hold units indirectly via an IDPS) are able to access Fundhost's complaints procedures outlined above. For indirect investors, if your complaint concerns the operation of the IDPS you should contact the IDPS operator directly.
